# National Recovery Month

## 2016

### Recovery Month Town Hall Presentations

*(South Central church of Christ, )*

**“NC Access to Recovery (NCATR)** is a voucher program that extends the current array of services and availability of providers in the state by providing recovery support services through the use of grant funds so participants can choose their services and providers freely and independently.”

**“Recovery Coaching** is for individuals who are or want to be involved in the recovery initiation of others and want to become a personal guide and mentor for people seeking or already in addiction recovery. Recovery Coaches can be individuals in addiction recovery, a family member of someone in recovery, or a recovery friend/ally.”

**“A collegiate recovery program (CRP)** is a supportive environment within the campus culture that reinforces the decision to disengage from addictive behavior. It is designed to provide an educational opportunity alongside recovery support to ensure that students do not have to sacrifice one for the other.”

**“At the core of the new** recovery advocacy movement is the growing recognition and validation of the many pathways to addiction recovery. Awareness of and celebration of multiple pathways to recovery will ensure that recovery is a lived reality for a greater number of individuals, families and communities.”

**“A Recovery Community Center (RCC)** is a place free from stigma that offers peer recovery support to the Recovery Community, regardless of pathway. Types of support fall within four categories: emotional, informational, instrumental, and affiliational. RCC’s have space to provide everything from Recovery Coaching & peer support groups to job readiness training & professional education to help accessing social services & transportation to ping pong tournaments & cookouts.”
